

The 3rd JNC-ISN Flagship School Alpbach, Austria, 14-20 September 2020

**Neurodegenerative disease: From molecular
mechanisms to treatment strategies**

Join around 40 young scientists
from around the world for a week
in a retreat-like atmosphere.

Now Open for Applications
Closing Date **31st January 2020**

Find out more online

flagship-schools/](http://www.neurochemistry.org/isn-jnc-flagship-schools/)**

Preliminary Program

Scientific Organizer: Christian Haass & Jörg B. Schulz

Scientific talks

Neurodegeneration

Virginia Lee	USA
John Trojanowski	USA
Tony Hyman	Germany
Marc Diamond	USA

Neuroinflammation

Christian Haass	Germany
Cynthia A. Lemere	USA
Mathew Blurton-Jones	USA

Tutorials

How to write a paper

Anthony J. Turner and Natalia N. Nalivaeva	UK
---	----

Statistics

Frank Middleton	USA
-----------------	-----

Disease progression and prediction in vivo

Henrik Zetterberg	UK
Matthias Brendel	Germany

Treatment options

Jörg B. Schulz	Germany
----------------	---------

Special Topic I: Is Alzheimer's infectious?

John Collinge	UK
Adriano Aguzzi	Switzerland

Special Topic II: Where do we go in the future?

Pierluigi Nicotera	Germany
--------------------	---------

Reproducibility

Jörg B. Schulz	Germany
----------------	---------

Open Science

David Mellor	USA
--------------	-----
